

## A TIME PROVEN DESIGN MADE BETTER BY DORSEY

This design of rugged production line bore gages has been an industry standard for more than 75 years. Dorsey offers precise replacement models built to the same exacting specifications but with a choice of any of Dorsey's "High Amplification", "Traditional", or digital indicators. We continue to provide the original Standard Gage Company® customers with high quality interchangeable parts. We also build custom modifications and special gage models.

**STYLE 1** - All sizes utilize the same dial unit housing for extreme versatility.

Size 2  
1.00"-1.53"  
25.4 - 38.862mm
